

SPARC Covid-19 Mitigation Plan

1. Staff

- a. Don't come to work if showing any symptoms or if you have knowingly been in contact with a person suspected or confirmed positive for Covid 19 within the past 14 days.
- b. At the start of each work shift, read and sign screening checklist for Covid-19 mitigation.
- c. Wear a face mask whenever interfacing with the public.
- d. Sanitize hands after each transaction involving cash or credit cards.
- e. Disinfect all surfaces within touch of the public every hour the facility is open.
- f. Remind customers to stay 6 feet apart when checking in, and 10 feet apart when exercising, including walking.
- g. Remind customers to not use the facility if feeling sick or exhibiting any symptoms. Each participant will be screened prior to the activity. No one can participate who is exhibiting symptoms or who has knowingly been in contact with a suspected positive case of COVID-19 within the past 14 days.
- h. No participant may use the facility or join an outdoor activity within 72 hours of exhibiting a fever.
- i. Suggest that customers wear face mask.

2. Physical facility

- a. Plexiglass or glass guard installed at front counter.
- b. Modify the water fountain to only provide touchless water bottle filling, disabling the activation bar for direct drinking.
- c. Mark playing court floor with 10 foot by 10 foot grid or place cones.
- d. Mark entry way with 6 foot spacing for line at counter.
- e. Signage that restrooms are not for changing, and only one customer at a time in the restroom.

3. Surface disinfecting

- a. Staff will wipe down handrails, front counter, lockers, all door knobs, water fountain bar, sinks, faucets, chairs, hand dryers, and toilet handles every hour we are open.
- b. Staff will wipe down the tablet and cash register after each transaction (we will have staff use tablet to sign in customers, except for signing waivers).
- c. We will suspend shared use of lap counting devices.
- d. We will suspend use of shared equipment such as yoga mats, exercise bands, children's play equipment.
- e. We will place dispensers for wipes, tissues, and hand sanitizers throughout the facility, including the entryway, playing court, and restrooms.
- f. Staff will wipe down the facility's pickle ball rackets before and after each use. Only staff or authorized volunteers will set up/break down pickleball nets. Each pickleball player will be given 2 balls per session, that they will mark with their initials and use exclusively for their serving. Players should not pick up others' balls, using their rackets to return balls to the server. At the end of each session, balls used that session will be set aside for washing.

4. Scheduling

- a. Until social distancing for indoor recreation is less than 10 feet, we will only schedule the following activities:
 - i. Walking
 - ii. Singles pickleball
 - iii. Boot camp or other fitness activities that require no shared equipment or shared space
- b. To allow time for disinfecting surfaces, our classes will begin on the hour, and run for 45 minutes, with 15 minutes between for cleaning.
- c. Until further notice, activities will have a maximum capacity of 25 participants, including instructors.

5. Traffic Flow

- a. When weather permits, we will prop the front and rear doors to reduce door handle touches, and to increase air circulation.
- b. We will place chairs 6 feet apart in the entryway, and 10 feet apart in the playing area (benches marked to enforce social distancing).
- c. When groups of more than 20 are in the facility, we will ask that users exit through both the front and rear doors, to reduce congregation on their way out.
